

LIGHTING & FEEDING THE WORLD

One Village at a Time!

Our MOBILE SUNSHINE COOKER UNITS are ready to provide Renewable Energy for cooking any where in the world fueled by the Sun!

FACT: Around 20% of the world's forests are being illegally chopped down, a trend at its worst in Africa. The continent has lost around four million hectares of forests annually between 2000 and 2005, representing one-third of all global deforestation.

Environmetal News Network-

The recent Haiti and Chile earthquakes clearly show our lack of preparedness to quickly provide the basics of power, light, water and fuel for cooking for unfortunate disaster victims.

Green World Systems MOBILE SUNSHINE COOKER UNITS are self contained Solar Cooking stations ready for deployment to remote villages, disaster areas, construction sites, farms, hunting and fishing, campsites, events and fairs. *Great Fund Raiser!*

**CORPORATE, CHARITABLE SPONSORSHIP &
CARBON CREDIT PROGRAMS, AVAILABLE**
